INSTRUMENTATION COURSES

MECHANICAL COURSES

ELECTRICAL SAFETY AWARENESS

COURSE 385: ½ DAY: Max 8 Candidates

What makes a person legally competent to do electrical work? What are the duties of employees? What are the dangers of electricity? These are just some of the questions dealt with on this informative course.

PARTICIPANTS

This course is intended for non-electrical personnel that need to know about the legal requirements. It could include office staff who occasionally access areas where electrical work is being done, storekeepers, etc. Electrical personnel will require the full EAW course (No 380).

COURSE PRESENTATION

This important subject is illustrated throughout by reference to real-life situations and practical applications. Comprehensive course notes are provided.

COURSE OBJECTIVES

On completion of the course, participants will have an understanding of the current legal requirements regarding

- the concept of 'duty holder'
- electrical systems, work activities and protective equipment
- the provision of insulation, barriers, etc.
- earthing, bonding and other means of protection
- suitability of electrical connections
- protection from overload and short-circuit currents
- the concept of 'competence' in electrical work.

Successful completion of the course leads to the award of the Technical Training Solutions Certificate of Achievement 385: Electrical Safety Awareness.
